2" IBC Adapters- Easy Seal

IBC Easy-Seal

Connecting to your US pipe threaded IBC tote just got easy with the "Easy-Seal" range of IBC adaptors. Designed specifically for the fine thread IBC valve, screw it on and you are ready to go, no thread tape needed, so you have no leaks. The high performance — PE gasket takes care of that. Removing the adaptors is just as easy, unscrew them and you are ready for the next container.

As with our buttress thread adaptors "Easy-Seal" are molded at our factory using food grade polymer and then bagged and labelled. The range has most common sizes and hose barbs to get connected with the least amount of effort.
